DETAILED ACTION

1. Claims 1-54 are pending in the application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-54 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 25, the values of variables X and Y defined as ---cyclic aliphatic heterocycle and cyclic aromatic heterocycle--- are indefinite since the size of the ring, number and types of heteroatoms present in the ring are not defined.

In claims 11 and 40, last line, the term ---functionalized benzimidazole mercaptan--- is indefinite since its meaning is not clear.

In claims 12, 41 and 54, the values of variables X and Y are not defined.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 54 is rejected under 35 U.S.C. 102(b) as being anticipated by Hirano (JP 02108039).

Hirano discloses Direct positive-type color photographic material. The compound (I-6) disclosed in column 29 (see RN 125708-86-3) by Hirano anticipates the instant claim when R10, R11, R12 , R13, R14 represent H and R9 represents aliphatic group in the instant compounds of formula (III).
